Shipping

We will ship in-stock items the same day if order is received by 2:00 pm CST. We will ship FedEx, UPS or common carrier. The purchaser is responsible for freight charges.

Terms

Net 30 terms require that you furnish us with at least 3 acceptable trade references. Meanwhile, we can ship COD or by credit card until your terms are approved. **Credit Cards** accepted are Visa, MasterCard, American Express, & Discover. **COD** orders can be accepted with a money order or company check.

Policies

There are no minimums for embroidery supply orders. Our prices are subject to change without notice. Products, descriptions, typographical and photographic errors are unintentional and subject to correction. Any account may be put on COD basis without prior notice.

Returns

To return a product, the customer must obtain a Return Material Authorization (RMA) from customer service. Returns received without an RMA will be refused. All requests for an RMA must be made within 30-days of product receipt. Midwest Textiles & Supplies will issue an RMA that is valid for 10 business days for any approved returns. Any returns received after the 10-day time frame, will be sent back to the customer at their expense. A return label will be issued, and no restocking fee will apply for any return which is due to a product defect or Midwest error. A \$75 restock fee will be charged for all other returns. There will be an additional charge of \$25 for re-handling per item returned that has been opened and/or needs to be reworked.

THREAD

Polyneon Thread - #40

This is a standard weight for all types of embroidery. Made from 100% polyester, it is strong and constructed of a specially developed raw material intended to eliminate looping, puckering and thread breaks. Vibrant colors are glossy, as well as resistant to chlorine bleach, making this thread ideal for commercial linens or any application where the end product will be subjected to harsh laundering.

1,100 Yard Spools - 919-XXXX (453 Colors)

5,500 Yard Cones - 918-XXXX (435 Colors)

Digitizing: Average 4.0 density

Recommended Needle: #65/9 - #75/11

Polyneon Thread - #60

This thread offers the same shine and strength as #40 Polyneon, but is thinner, having been created for designs that require small lettering or intricate detailing. It is ideal for small lettering down to 3mm tall and also for intricate detailing. Small lettering appears crisp and easy to read.

1,640 Yard Spools - 924-XXXX (103 Colors)*

5,500 Yard Cones - 926-XXXX (2 Colors)*

Digitizing: Average 3.5 density

Recommended Needle: #65/9 - #70/10

Polyneon Thread - #75

Polyneon #75 is the thinnest 100% polyester embroidery thread. It is used for attaching small sequins and for producing the finest small letters (smaller than 3 mm.) and very intricate filigree embroidery.

2,734 Yard Spools - 936-XXXX (40 Colors)*

Digitizing: Average 3.5 density / Recommended Needle: #60/8

COATS - Astra Spun Polyester

Coats Astra is a best-in-class 100% staple spun polyester (SSP) sewing thread with significantly higher sewing performance when compared with regular SSP threads. This reduces machine downtime and increases productivity giving you a consistent sewing performance. This makes Astra the thread of choice for sewers where cost matters.

SP5 6,000 Yard Cones - SP5-XXXXX (14 Colors)

SP7 6,000 Yard Cones - SP7-XXXXX (28 Colors)

MET Pro - Sew Smooth Polyester #40

We also carry Sew Smooth black and white polyester thread. These 40 weight, 5,500 yard cones are made of 100% polyester. Sew Smooth has proven to be a very high quality, yet economical thread in our industry.

5,500 Yard Cones - 900-3000 (White)

5,500 Yard Cones - 900-4000 (Black)

* These are non-stock items and can be special ordered. Madeira items may be shipped directly from Madeira (An additional fee will be added onto any dropship order)

Frosted Matt

This is a true matte finish polyester embroidery thread. Its vivid colors give it a high definition appearance that adds dimension and clarity to designs. Manufactured to be highly colorfast when exposed to sunlight for long periods of time, Frosted Matt has an unmatched overall rating for fastness to light, making it ideal for embroidered items that will be in direct sunlight, such as patio cushions and boat covers. Its polyester properties allow Frosted Matt to stand up to laundering with diluted bleach. It is Oeko-Tex® certified to be free from harmful substances.

1,100 Yard Spools - **942-XXXX** (50 Colors)*

5,500 Yard Cones - **940-XXXX** (189 Colors)*

Digitizing: Average 3.5-4.0 density

Recommended Needle: #65/9 - #75/11

Burmilana

A thicker thread, Madeira Burmilana #12, is a blend of 50% natural wool and 50% acrylic for durability. The high percentage of wool adds a new dimension to embroidery designs, creating a unique appearance while reducing stitch counts. It is used for chenille, loop pile or chain stitch embroidery. Its thick, soft texture produces a hand-embroidered look. It is Oeko-Tex® certified to be free from harmful substances.

1,100 Yard Spools - **813-XXXX** (72 Colors)*

Digitizing: Average 9.0 density

Recommended Needle: #100/16

BurmilanaCo

BurmilanaCo is a blend of 50% natural cotton and 50% acrylic for durability. A 12-weight machine thread, it is very soft and cool due to the high cotton content. Delivering volume and texture, BurmilanaCo is an excellent choice for chenille embroidery, chain stitch, fringing, decorative seams and other special effects. It is Oeko-Tex® Standard 100 in class 1 (Baby-Standard) certified to be free from harmful substances.

1,100 Yard Spools - **816-XXXX** (72 Colors)*

Digitizing: Average 9.0 density

Recommended Needle: #100/16

Admiral Plus / A&E Anecot Plus Cotton Thread

The Admiral Plus/Anecot Plus thread is a high strength 100% long staple spun cotton sewing thread twisted and finished for optimum sewing performance and excellent for over dyeing. Ideal for applications where a high strength natural fiber is required, it is an excellent choice for garment over dyeing. Not affected by needle heat or pressing, it will not melt and boasts low elongation and excellent loop formation.

Admiral Plus - 6,000 Yard Cones - **SUC-XXXX** (While supplies last)

Anecot Plus - 6,000 Yard Cones - **SSC-XXXX**

* These are non-stock items and can be special ordered. Madeira items may be shipped directly from Madeira (An additional fee will be added onto any dropship order)

Alcazar / Rayon #40

Alcazar a viscose rayon embroidery thread especially designed to operate smoothly at extraordinarily high machine speeds on any machine. Its superior luster and wide color range make it a popular choice among embroiderers.

5,500 Yard Cones - **490-XXXX** (Black & White)

3,300 Yard Cones - **491-XXXX** (Colors) - some colors are offered in 5,500 yard cones as available

Classic/Rayon Thread - #40

This is a standard weight embroidery thread that is dependable, all-purpose and ideal for almost every design. Made from 100% eco-friendly viscose rayon, it runs exceptionally well on high-speed multi-head embroidery machines and semi-pro home machines. It is known worldwide for its high tensile strength and glossy luster. A soft hand is maintained, even with high stitch count designs.

1,100 Yard Spools - **911-XXXX** (443 Colors)

5,500 Yard Cones - **910-XXXX** (426 Colors)

Digitizing: Average 4.0 density

Recommended Needle: #65/9 - #75/11

Classic/Rayon Thread - #30

This thread is thicker than standard 40 weight embroidery thread, and when used for fill, may cut down on stitch count and production time, especially on large designs. It is ideal for decorative stitching, as well as large fill areas. It is known worldwide for its high tensile strength and glossy luster.

714 Yard Spools - **914-XXXX** (178 Colors)*

3,300 Yard Cones - **921-XXXX** (2 Colors)*

Digitizing: Average 5.0 density

Recommended Needle: #75/11 - #80/12

Classic/Rayon Thread - #60

This thread offers the same lustrous properties as Classic #40, but is thinner, having been created for designs that require small lettering or intricate detailing. Classic Rayon #60 makes it possible to create letters down to 3mm in size while still maintaining detail and clarity.

1,640 Yard Spools - **915S-XXXX** (86 Colors)*

Digitizing: Average 3.5 density / Recommended Needle: #65/9 - #70/10

Robison-Anton 600 Denier Rayon Floss

Designed for monograms, merrowing, athletic lettering, and crests. May also be used on terry cloth, swimwear, lingerie & silk, headwear, and a wide array of garments.

3,500 Yard Spools - **RA6-XXXX**

* These are non-stock items and can be special ordered. Madeira items may be shipped directly from Madeira (An additional fee will be added onto any dropship order)

MADEIRA

FS Metallic #40

FS #40 Metallic machine embroidery thread is a smooth supple thread, perfect for sophisticated embroidery designs on elaborate base materials. The combination of a razor-thin Polyamide core and twist construction results in a top quality and reliable metallic embroidery thread. Madeira FS Metallic embroidery thread is available in a variety of colors and delivers exceptional quality. It is Oeko-Tex® certified to be free from harmful substances.

1,100 Yard Spools - 985-XXXX (20 Colors)

Digitizing: Average 4.0 density

5,500 Yard Cones - 986-XXXX (21 Colors)*

Recommended Needle: #65/9 - #75/11

FS Metallic #30

FS #30 metallic machine embroidery thread produces designs with a rich and genuine metallic look. Its exclusive twist construction and double-layer protection make it the most abrasion resistant metallic thread in the industry. A true specialty thread developed for outdoor exposure, chlorine and bleaching, plus harsh laundering at temperatures. Ideal for corporate designs and company emblems, on denim, leather, canvas, sporting goods and hotel catering industry wares, particularly where fastness and durability are essential.

2,734 Yard Cone - 979-XXXX (9 Colors)*

Digitizing: Average 5.0 density

Recommended Needle: #80/12SAN8 - #90/14

FS Metallic #20

FS #20 is an elegant and soft metallic thread made from velvety spun rayon wrapped by an extra fine metallised foil. The blends of color are outstanding and voluminous. FS #20 threads are great for outlining and accent stitching in designs. It is exceptionally gentle to the skin and a wonderful compliment to fashion, children's wear, home decor and corporate wear.

612 Yard Spools - 981-XXXX (32 Colors)*

Digitization: Average 8.0 density

Recommended Needle: #100/16

Polyester CR Metallic #40

This soft touch metallic thread has a high tech color coating, is resistant against abrasion. Composed of 68% polyester and 32% metallic polyester. Optimized for ease of use with standard embroidery needles, it is the perfect match for trouble free stitching at top speeds.

2,700 Yard Spools - 978-XXXX (41 Colors)*

Digitizing: Average 4.0 density

Recommended Needle: #75/11

Supertwist #30

Madeira's Supertwist metallic machine embroidery thread, is constructed of a specifically developed raw material, eliminating looping, puckering and virtually all thread breaks. This twisted metallic thread brings designs to life with sparkle. Unexpected textured dimension and dazzling embroidery is guaranteed with this sparkling metallized embroidery thread. Smoothly running, festive and magnificent colors ensure glittering reflexes. Choose from subtle iridescent tones, charming opal and pastel-colored crystal hues (fast to denim-wash) or from an amazing selection of multi colors. The innovative structure and fine finish allow embroidery at highest speed on the most difficult material.

1,100 Yard Spools - 983-XXXX (121 Colors)*

Digitizing: Average 6.0 density

5,500 Yard Cones - 982-XXXX (95 Colors)

Recommended Needle: #80/12 - #90/14

* These are non-stock items and can be special ordered. Madeira items may be shipped directly from Madeira. (An additional fee will be added onto any dropship order)

Organ Industrial Large-Eye Embroidery Needles (DBxK5)

Organ Embroidery Needles are made to higher standards for smoother sewing. They have an oversized eye to reduce the stress and tension on delicate embroidery thread. Organ Embroidery Needles also accommodate metallic threads and makes needle threading easier. The Titanium Embroidery Needles are more expensive but will last up to 5 times longer. Available in multiples of 10 needles (100 needles per box).

Chainstitch/Dropstitch/Lockstitch Embroidery Needles

Chainstitch style has a long hook to hold the thread. Dropstitch style has a shorter hook to allow the thread to slip off the needle at the top of the chenille loop. Lockstitch embroidery needles are used for embroidery on general fabrics, leathers, knits, & elastics. The size refers to the notch opening. Proper size depends on the diameter of yard being used. The heavier the material, the higher the size. These needles may be ordered in multiples of 10 (10 pack) or a box of 100 needles.

BACKING & TOPPING

Advanced Materials for a Cleaner World®

Hollingsworth & Vose

H&V Cutaway Backing

Stretchy and delicate fabrics require the stability of a high-quality backing. Cutaways are the favored choice for maintaining the design's detail, as tearaways can often distort the design on fragile fabric. In general, cutaways have more bulk than tearaways and are more resistant to needle perforations. Soft cutaways can be especially helpful for garment control. This is contrary to prior belief that softness, ease of cutting, and stability are mutually exclusive. All grades are available in a variety of precut sizes and rolls. Bundles contain 500 pieces.

GRADE

- 6315** Light weight, soft cutaway (1.5oz) - White
- 7720** Medium weight, soft cutaway (2.0oz) - White
- 7725** Medium weight, soft cutaway (2.5oz) - White
- 7725B** Medium weight, soft cutaway (2.5oz) - Black
- 7730** Heavy weight, soft cutaway (3.0oz) - White
- 7730B** Heavy weight, soft cutaway (3.0oz) - Black
- 7735** Heavy weight, soft cutaway (3.5oz) - White
- 9920** Light weight, firm cutaway (2.0oz) - White
- 9925** Medium weight, firm cutaway (2.5oz) - White
- 9925B** Medium weight, firm cutaway (2.5oz) - Black
- 9930** Heavy weight, firm cutaway (3.0oz) - White
- 9930B** Heavy weight, firm cutaway (3.0oz) - Black
- 9935** Heavy weight, firm cutaway (3.5oz) - White

MET Pro Cutaway Backing

In addition to H&V, we also offer our own line of cutaway products that are comparable to H&V when it comes to stability & structure. All grades are available in a variety of precut sizes and rolls. Bundles contain 500 pieces.

GRADE

- 4019** Light weight, soft cutaway (1.9oz) - White
- 4020** Light weight, soft cutaway (2.0oz) - White
- 4083** Medium weight, soft cutaway (2.4oz) - White
- 4083B** Medium weight, soft cutaway (2.4oz) - Black

- 4022B** Heavy weight, soft cutaway (3.0oz) - Black
- 4093** Heavy weight, soft cutaway (3.1oz) - White

Advanced Materials for a Cleaner World®

Hollingsworth & Vose

H&V Tearaway Backing

A tearaway is the backing of choice for most embroiderers using stable fabrics. Tearaway material makes removing excess backing faster, cheaper, and safer than using backing that must be cut with scissors. H&V's exclusive StitchBackers washaway products offer superior stability and tear exceptionally well in all directions. Even difficult designs and fabrics are left unharmed. When laundered, any excess backing simply washes away while the stitches remain firmly locked in place! All grades are available in a variety of precut sizes and rolls. Bundles contain 500 pieces.

GRADE

- 1525** Light weight, tearaway (1.5oz) - White
- 1525B** Light weight, tearaway (1.5oz) - Black
- 1720** Light weight, tearaway/washaway (1.52oz) - White
- 1825** Light weight, tearaway (1.8oz) - White
- 1885** Light weight, soft tearaway (1.8oz) - White
- 2020** Medium weight, tearaway/washaway (2.0oz) - White
- 2520** Medium weight, tearaway (2.5oz) - White
- 3020** Heavy weight, tearaway (3.0oz) - White
- 3045** Heavy weight, firm tearaway (3.0oz) - White

MET Pro Tearaway Backing

Just like MET Pro's cutaway, their tearaway is comparable to H&V. All grades are available in a variety of precut sizes and rolls. Bundles contain 500 pieces.

GRADE

- 4063** Light weight, soft tearaway (1.5oz) - White

Specialty Backing

All specialty backing products are available in a variety of precut sizes and rolls. Bundles contain 500 pieces.

Web Mesh (No-Show Backing) - 90 (White) 90B (Black)

Web mesh is a very lightweight backing with a waffle weave which works well with thin fabric. This product provides the stability you need with a single layer. If added support is necessary it can be layered with a tearaway to provide better stitch definition. Available in a variety of precut sizes and rolls. Bundles contain 500 pieces. We offer this product in white or black.

Peel & Stick Cutaway Backing - 1555

This backing by H & V is an adhesive tearaway with a release paper designed to help with those difficult hooping jobs. It works very well with patches, appliques, and ribbons. It doesn't leave hooping marks on delicate materials. Available in a variety of precut sizes and rolls. Bundles contain 500 pieces.

Crinoline - BAC-CRI

Crinoline is a bleached, white, starched open weave cotton backing. It is mainly used to add stiffness to emblems & badges. This item is sold by the yard and is 60" wide.

Buckram - BAC-BUC

Buckram is an unbleached, starched, open weave cotton. It is heavier than crinoline. It is mainly used for backing chenille embroidery on 70/30 felt. This item is sold by the yard and is 44-45" wide.

Softstitch - BAC-SS

Soft stitch is a white, needled, woven look material with openness, softness and body mainly used for sweaters, etc. This item is sold by the yard and is 48" wide.

Badgemaster - 110

Badgemaster is a heavy weight, water soluble stabilizer that dissolves completely in warm water. Embroidery is done directly on the material for lace, badges and heirloom embroidery. It can be used as a stabilizer for cutwork embroidery.

Water Soluble Topping

All topping products are available in a variety of precut sizes and rolls. Bundles contain 500 pieces.

Aqua Film - 101

Aqua Film is a water soluble topping used to prevent stitches from getting lost in the fabric or nap. Aqua Film is available in perforated rolls with easy to tear off sheets.

Water Soluble Topping - 101

Water Soluble Topping comes in many different sizes including rolls as well as precut sheets. This topping helps to prevent stitches from getting lost in the fabric or nap and improves the look of a design, especially intricate details.

DRAPERY PRODUCTS

Hovotex Buckram

Hovotex nonwoven supports more drapery pleats than any other nonwoven buckram in the world. Offered in several weights and available in heat tackable versions for faster sewing, our Hovotex buckram keeps drapery pleats looking new after laundering or dry cleaning.

- 3130-X** Plain - Available in widths between 1" & 8" (Must be ordered in 100 yard increments)
- 3130HS-X** Heat Seal - Available in widths between 1" & 6" (Must be ordered in 100 yard increments)
- 3630-X** Plain/Heavyweight - Available in widths between 1.5" & 6" (Must be ordered in 100 yard increments)

HOOPS

All hoops are special order and are non-stock items.

Tajima Hoops

The original darker green Tajima Hoops are lightly used as they no longer produce them. Generic Tajima hoops may be ordered as well. Please specify used or generic when ordering. Listed below are the most popular sizes that we sell. Other sizes are available upon request. Contact our Customer Service Team to inquire about additional sizes and to place an order.

ITEM #	SIZE	SEWING FIELD

B-12-sewing field	12cm	380 or 520		
B-15-sewing field	15cm	380 or 520		

Needle Spacing Guide

A simple way of determining the needle spacing or sewing field is to measure one of your current hoops from the tip of one stamping to the tip of the other. You can also measure the distance between the arms on your tubular machine.

EMBROIDERY AIDS & ACCESSORIES

Markers & Pens

The touch-up pens help to permanently cover up any minor show-through or visible bobbin thread quickly and easily. The markings made with the invisible marking pens will disappear when sprayed with water. If left untouched, the marks will disappear within 2 to 14 days. These are safe for use with all materials, however, it is recommended that a test mark be done. Additionally, the type of material used and atmospheric conditions will affect the time necessary for the mark to disappear spontaneously.

Polyester Twill & Adhesive Films

Polyester Twill

100% polyester fabric. 50" wide. Backed with heat-seal film (called "heat-press-on" or "HPO") to allow bonding to a garment, for zig-zag appliqué of letters, etc. Also sold without HPO backing (plain-back) for banners and jackets. Sold by the yard.

PTP-XX (Plain)

PTH-XX (HPO)

Available Colors (* indicates item is only available in PTP --- # indicates item is only available in PTH)

Poly-Cotton Fabric

65% polyester/35% cotton. 60" wide. The Poly-Cotton fabric is available with 3 different backings. PCS is backed with Troylon, a white non-woven that gives body to the fabric for embroidery or merrowing. PCN is backed with No Sew Film (NS5), a 5-mil heat seal film that gives body to the fabric and then can be permanently bonded to the fabric. PCP (plain) is just the fabric without any type of backing. Sold by the yard.

PCP-XX (Plain)

PCS-XX (Troylon)

PCN-XX (NS5)

Available Colors

Welding Film

Our 45" wide welding film is a poly-vinyl chloride based film that is used to back tackle twill, flock and vinyl flex. Also great for appliqué work on t-shirts & sweatshirts. Satisfactory bond for laundering and all fabric (except tight weave nylon). Fair resistance to dry cleaning. Sold by the yard.

BAC-WFR

No-Sew Film

NS5 is a 44" wide nylon based film with paper backing that bonds satisfactory to all fabrics, including tight weave nylon (only exception is rayon). Washes and dry cleans well.

BAC-NS5

HPO Troylon (TRO)

White, firm 2oz. non-woven backing with dotted heat seal coating to be adhered to fabric to give it permanent body. 60" wide. Apply at 325 degrees Fahrenheit for 15 seconds.

BAC-TRO-60

Orlon Acrylic Yarn / Chenille Yarn

Commonly used on athletic sweaters and jackets to create emblems and letters. Sold by the pound. Each cone weighs approximately 2.5 pounds. 24 colors available. Please note that the actual color of the felt may differ from the images below.

CYO-XX

Chenille Scrim Felt

20% wool & 80% rayon felt blend. This felt is used to make letters and names for athletic jackets. It provides body so felt can be embroidered without additional backing. Chenille Scrim Felt is sold by the yard and is 42" wide. Please note that the actual color of the felt may differ from the images below.

CSF-XX

Athletic Wool Felt

70% wool & 30% rayon felt blend. This felt is used to make Athletic banners and emblems. Athletic Wool Felt is sold by the yard and is 72" wide (folded to 36"). See the chart below for color options. Please note that the actual color of the felt may differ from the images below.

AFP-XX

(Colors marked with ** are not available in Athletic Wool Felt)

Swiss Loom Inserts

Gold rayon thread embroidered onto black felt and backed with a clear polyethylene film. Used on chenille letters. Position insert onto unfinished letter and temporarily heat seal to felt before sewing. Chenille is then filled in. See the chart below for available options. Swiss-Loomed Inserts may be mixed and matched to get quantity discounts.
